Dear Friends and Family:

Lacrosse is one of the fastest growing team sports in the United States. Started by the Native American Indians, lacrosse has developed into a fast paced, full of action sport that anyone can play. It combines the skills and fundamentals of basketball, soccer and hockey and requires speed, quickness, strength, agility, leadership and teamwork. To date there are over 169,000 high school level players and the number of youth memberships in the US Lacrosse Association has tripled since 1999 from 40,000 to over 125,000. Lacrosse is also the fastest growing NCAA sport over the last five years with local evidence in the University of South Carolina which is set to debut both Men's and Women's Division 1 teams in the spring of 2009.

As you may have heard or read recently, a group of highly motivated boys and girls of the growing East Cooper Community have been active in organizing a competitive Lacrosse program. Their motivation and determination has proven contagious, inspiring a group of parents, coaches, and volunteers to support this effort. The procedure(s) required to be considered a sport sanctioned by the school system is complicated; for us to compete last season it was necessary to organize independently. The Town of Mount Pleasant Recreation Department and Wando High School are working with us to provide support wherever they can, but we will still need funding to be successful.

There are several sound reasons to support these students in their goal to compete in Lacrosse and represent our community, including:

- There are approximately 3,000 high school students in East Cooper and not enough competitive sports opportunities for all of them.
- Lacrosse programs are developing throughout South Carolina through recreation departments, club teams, and several S.C. School Districts. These boys and girls want to represent our area at this level!
- It would open opportunities for these boys and girls to compete at the college level.
- Just like the soccer and hockey teams before them, we can be successful in developing youth programs through the local recreation departments.

We urge you to join us for the 2008 season in what we hope to be the strongest in the history of Wando Lacrosse by becoming a sponsor or volunteer. Everyone involved with Wando Lacrosse would like to thank you for your time and consideration. For more information about our project, please visit our web site at: www.wandolacrosse.org
